

ADVANCED PLACEMENT & CREDIT

Purpose:

This policy outlines the University's guidelines for awarding credit and/or advanced placement based on scores achieved in Advanced Placement Tests.

Scope:

This policy applies to all currently enrolled students.

Definitions:

"AP Test" means Advanced Placement Tests of the College Entrance Examination Board

Policy:

Bucknell University recognizes advanced scholastic achievement in secondary schools by granting to qualified students:

- A. University credit,
- B. advanced placement, and/or
- C. a reduction of general education requirements.

Qualified Students

A student's performance on an AP Test will determine whether advanced placement and credit will be granted.

- A. Most departments give credit for scores of 4 or 5.
- B. Credit is not given for scores of 1 or 2.

In all instances, the credit will be given only for work equivalent to courses in the academic departments of the University. There is a limit to the amount of credit that may be granted in most subject areas. In addition, there is an eight-course maximum on the total credit that may be granted for advanced placement tests and for college work taken while in secondary school.

University Credit

Course credits granted through the advanced placement program may be used to fulfill appropriate degree requirements. These normally include the disciplinary breadth requirements in the College of Arts & Sciences and Freeman College of Management, minimum course credits required for graduation, and, if approved by the registrar and the department involved, specific major or minor requirements. (Physics credits may be considered as a laboratory science for the natural science divisional disciplinary breadth requirement only if approved by the department. Chemistry credits are not considered laboratory credits.)

Advanced Placement

Students receiving such recognition may enroll as first-year students in advanced courses in the subjects in which they have received the advanced placement, or they may elect courses in

other subjects. This plan of advanced placement creates the opportunity to begin college work at a higher level and it may shorten the time required to complete one's undergraduate work. See Attachment A - Advanced Placement Credit at Bucknell below.
