

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP)

Purpose:

This policy outlines the University's guidelines for awarding credit and/or placement based on scores achieved in a College Level Examination Program.

Scope:

This policy applies to all currently enrolled students.

Definitions:

"CLEP" means the College Level Examination Program. CLEP is a set of standardized tests administered by the College Board to assess college-level knowledge in specific subject areas.

Policy:

Bucknell will apply course credit for students who earn certain minimum grades on some, but not all, CLEP exams, subject to department approval. Only the exams listed below can earn credit.

Restrictions

- A. Students will not be granted CLEP credit for a foreign language exam if the exam concerns the student's native language.
- B. Credit will not be given for languages which the student already has experience with beyond the 101 level. Students who have experience at the 101 level must receive a

score qualifying for level 2 and will only receive one credit. Only students without any experience in the language may receive credit for a level 1 score.

- C. Only one economics credit is granted. If both exams are taken and passed, credit to be granted is ECON 101 or 103 instead of ECON 1TR.
- D. CLEP exams are not intended to test a student's mastery of a subject based on material already learned elsewhere; rather, the intent is to study and learn new material on which to be tested to earn college credit in place of taking a college course for credit. Credit will not be granted for uses of CLEP that violate the intent described above.
- E. A maximum of six Bucknell course credits may be earned from credit granted for achievement on comparable CLEP subject examinations, credit by examination and/or nontraditional study courses.
- F. Credit for CLEP examinations will not be granted when an individual has previously received credit for the same subject material by any of the following means:
 - 1. Transfer credit through course completion at another college/university.
 - 2. Advanced Placement, International Baccalaureate, General Certificate of Education or A-Level credit.
 - 3. Previously completed Bucknell coursework.
- G. CLEP may not be taken in the same subject as the student's major. Many departments have limits on the number of 100-level courses a student may complete; credit will not be granted when the CLEP examination would exceed the established academic department limit. Use of a CLEP transfer credit to fulfill requirements of a major will only occur with the consent of the department chair.
- H. Credits from CLEP cannot be used to satisfy the following General Education requirements:
 - 1. Foundational Experiences,
 - 2. Learning Goals,
 - 3. Intellectual Skills, or
 - 4. Tools for Critical Engagement.
- I. Bucknell students (current or returning) must complete the Permission for College Level Examination Program Form, available from the student's academic dean, and have the necessary approval before scheduling any CLEP examination. This is to ensure individuals do not complete an examination for which credit could not be earned. Failure to do so may result in the inability to transfer the credit.
- J. Bucknell will grant course credit for CLEP subject examinations as noted above. Course credit will be awarded in the form of a direct course equivalent where indicated and in the form of departmental "1TR" credit, for example, ENGL 1TR for the American Literature exam.
