

# GRADE REPLACEMENT

## Purpose:

To define how and when a failed course at Bucknell can be repeated and the grade replaced.

## Scope:

This policy applies to all currently enrolled students.

## Policy:

- A. Courses for which a grade of F may be assigned are eligible for grade replacement under this policy, however courses in which students received an F grade as a penalty from a Board of Review case are not eligible to be replaced.
- B. Beginning with all active students in the Spring of 2023, F grades will be replaced with NC (No Credit) when the same course has been retaken for a passing grade at Bucknell or transferred in with a passing grade from a directly equivalent course.
  - 1. The replacement course must be completed before graduation.
  - 2. The approval of the equivalent course transfer will be at the discretion of the relevant department.
  - 3. Transcribed grades of NC will not be factored into the GPA.
- C. No action is required on the part of the student for this replacement to occur. Grades are automatically adjusted by the Registrar's Office once the repeated course grade or transfer credit is received.
- D. Students are encouraged to discuss plans to retake courses with their academic adviser.
