

ACADEMIC STANDING

Purpose:

This policy specifies the minimum academic performance required of all undergraduate students as measured by Grade Point Average (GPA) and dictates the ramifications for failing to meet that minimum.

Scope:

This policy applies to all currently enrolled students.

Definitions:

"Good Academic Standing" means the student has passed the minimum number of courses and earned a minimum cumulative GPA as defined by the standards outlined by the student's college in this policy.

"Credit Warning" means the student has a credit deficiency, as defined by the standards outlined by the student's college in this policy, and has been notified by the dean of the student's college that they are not in good academic standing and will be placed on credit warning.

"Grade Point Warning" means the student has a cumulative GPA below that required at the end of the academic year – that is, 1.80 for first-year students, 1.90 for sophomores, and 2.00 for juniors – and has been notified by the dean of the student's college that they have been placed on grade point warning.

"Engineering Grade Point Warning" means the student is enrolled in the College of Engineering and they have not met the minimum GPA in all courses in the College of Engineering – that is, 1.80 at the start of the third semester, 1.90 at the start of the fourth semester, and 2.00 at the start of the fifth and subsequent semesters - and has been placed on engineering grade point warning.

Policy:

Students who are admitted to Bucknell as first-year college students are typically expected to meet all degree requirements within eight semesters (including semesters on approved programs off-campus and semesters elsewhere for transfer students) and ensuing summers. In some circumstances, the dean of the student's college may approve an extension to nine or 10 semesters of study.

All students are expected to earn and maintain good academic standing as has been defined for their class. To be in good academic standing (and to be eligible for continued enrollment), students normally must pass a minimum number of courses and earn a minimum cumulative GPA based on the following standards:

College of Arts & Sciences, and College of Management Standards

Beginning of Semester 2

Minimum number of courses passed: 3

Cumulative Grade Point Average: 1.80

Beginning of Semester 3

Minimum number of courses passed: 7

Cumulative Grade Point Average: 1.80

Beginning of Semester 4

Minimum number of courses passed: 11

Cumulative Grade Point Average: 1.90

Beginning of Semester 5

Minimum number of courses passed: 15

Cumulative Grade Point Average: 1.90

Beginning of Semester 6

Minimum number of courses passed: 19

Cumulative Grade Point Average: 2.00

Beginning of Semester 7

Minimum number of courses passed: 24

Cumulative Grade Point Average: 2.00

Beginning of Semester 8

Minimum number of courses passed: 28

Cumulative Grade Point Average: 2.00

College of Engineering Standards

Beginning of Semester 2

Minimum number of courses passed: 3

Cumulative Grade Point Average: 1.80

Beginning of Semester 3

Minimum number of courses passed: 7

Cumulative Grade Point Average: 1.80

Beginning of Semester 4

Minimum number of courses passed: *

Cumulative Grade Point Average: 1.90

Beginning of Semester 5

Minimum number of courses passed: *

Cumulative Grade Point Average: 1.90

Beginning of Semester 6

Minimum number of courses passed: *

Cumulative Grade Point Average: 2.00

Beginning of Semester 7

Minimum number of courses passed: *

Cumulative Grade Point Average: 2.00

Beginning of Semester 8

Minimum number of courses passed: 29.5

Cumulative Grade Point Average: 2.00

*Engineering students must have earned within one course credit of the credits required for their curriculum.

Actions Resulting from Credit or GPA Deficiencies

- A. Students on Credit Warning will need to make up such credit deficits during the following summer (see above) at Bucknell or elsewhere.

- B. Students on Grade Point Warning may be advised to withdraw, or are subject to dismissal, depending upon the severity of the difficulty. Continuation of a grade point deficiency may lead to required summer school at Bucknell or dismissal at the end of the spring semester.
- C. Seniors must be in good standing (both in terms of grade point average and passed courses) to be eligible to enroll in their final semester.
- D. Students on Engineering Grade Point Warning may be advised to withdraw or may be subject to dismissal, depending on the severity of the difficulty.

Readmission Procedures

- A. If a student is dismissed for academic reasons, readmission consideration will be after one semester or one calendar year, depending on the dismissal.
- B. Students who have been academically dismissed may be required to attend Bucknell summer session and to earn sufficiently high grades to reduce their grade point deficits before the beginning of the next academic year.
- C. Readmission is not automatic and additional requirements may be placed on a dismissed student both during the dismissal period and upon return to Bucknell at the sole discretion of the University.
- D. Readmission will be considered only upon formal request and will be approved only if there is substantial evidence that return is likely to be successful. Requests for readmission consideration must be submitted to and approved by the dean of the student's college by March 1 for summer session, June 1 for fall semester, and Nov. 1 for spring semester.
- E. In the case of academic dismissals and requests for readmission, it is the responsibility of the student to understand the impact on financial aid, tuition balance, athletic eligibility, housing, class registration, etc. Students are strongly encouraged to contact the appropriate Dean's Office with any questions.
