

DOUBLE COUNTING COURSES

Purpose:

This policy outlines the guidelines for applying courses towards multiple requirements within a student's degree program at Bucknell.

Scope:

This policy applies to all currently enrolled students

Policy:

- A. Courses that fulfill general education requirements in any college may also be used to fulfill major or minor requirements. However, courses may not be counted in more than one major or minor; when one major or minor course satisfies the requirement in another major or minor, it must be replaced by an elective in the second major or minor.
- B. Major related requirements may be counted toward another major or minor.
